VISIONARIES WELCOME

C P Cables Limited

The background features a dark blue gradient with several glowing, light blue lines that appear to be fiber optic cables or data paths. These lines originate from the left side and extend towards the right, some ending in bright, circular glows. A large, dark, semi-transparent sphere is positioned on the left side, partially overlapping the lines. The overall aesthetic is futuristic and high-tech.

As an offshoot of the renowned C & P Group, our company pledges to maintain the legacy & values of its initial founders. Carrying the name of C&P comes with deep responsibility & we realize that as we live each day honestly, ethically & with absolute integrity.

We are committed to making our products and solutions meet the consumers demand. Satisfaction of customers is our main goal. For us to achieve our immediate and long-term goals, results & speed matter. The team moves the needle by focusing on the controllable inputs rather than the outputs. Our success is attributed to our resilience, grit and focus.

We think beyond & envision what could be. We have used research / analysis to find new opportunities and take calculated risks as we deep dive into understanding the business at all levels. Our goal is to continually raise the bar as we drive our teams to deliver high-quality products, services & processes.

We vow to make our Customers, Investors & Employees PROUD!

A majestic mountain range with snow-capped peaks under a purple and pink sky. The mountains are rugged and rocky, with patches of snow and ice. The sky is a mix of deep purple and soft pink, suggesting a sunset or sunrise. The overall scene is serene and awe-inspiring.

Visionaries Welcome

The long-term goal of C P Cables has been conceptualized with a relevant but completely out of the box approach. By default, we belong in an unprecedented space of our own that will only be understood by visionaries like you.

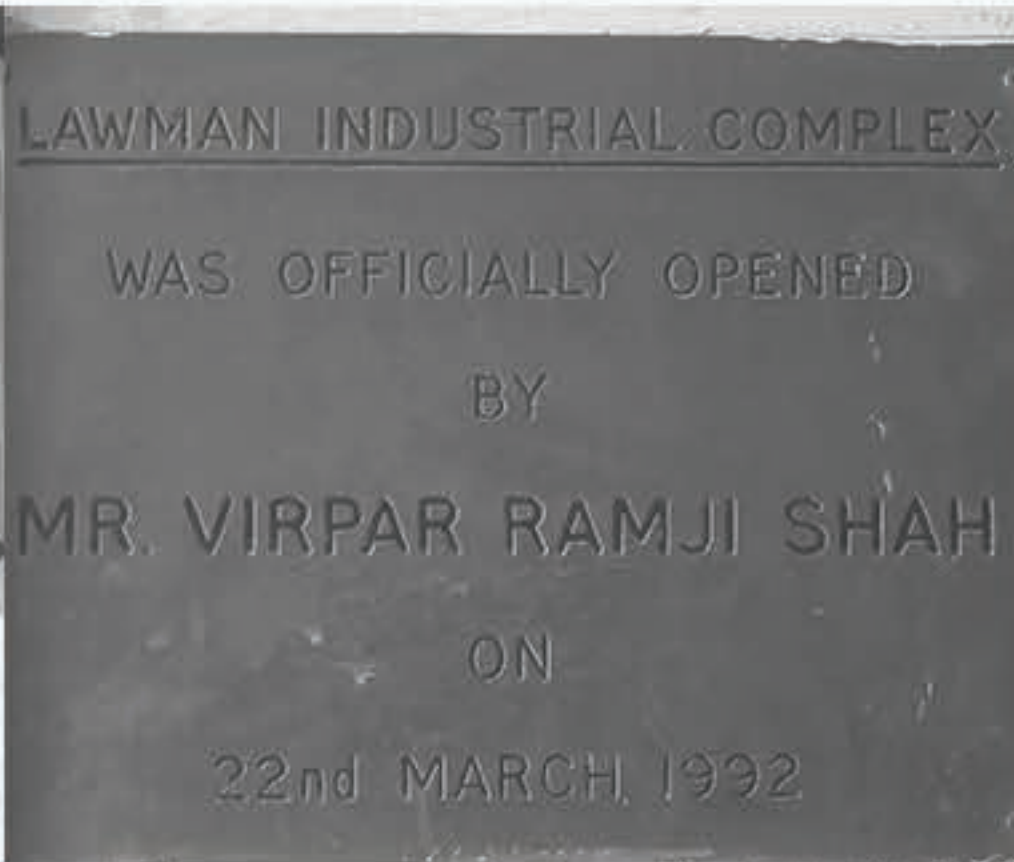

At its core is the DNA of C P Cables that embraces the immediate need of Optic Fiber, Networking & eventually Digital Security in the whole Sub Continent of Africa.

In rapidly changing times where data clearly is the new oil & automation at every level is gradually changing how we live each day, C P Cables is positioning its products & solutions to fit all such modern-day applications.

Its pioneering vision of African domination within its own industry by having substance, inventory & key on ground personnel wherever it goes, is already creating a jaw dropping reaction amongst several industry veterans.

Only visionaries like yourself will understand the holistic approach of C P Cables.

The C & P Group's Legacy

Putting blood, sweat & tears in the business for over four decades.

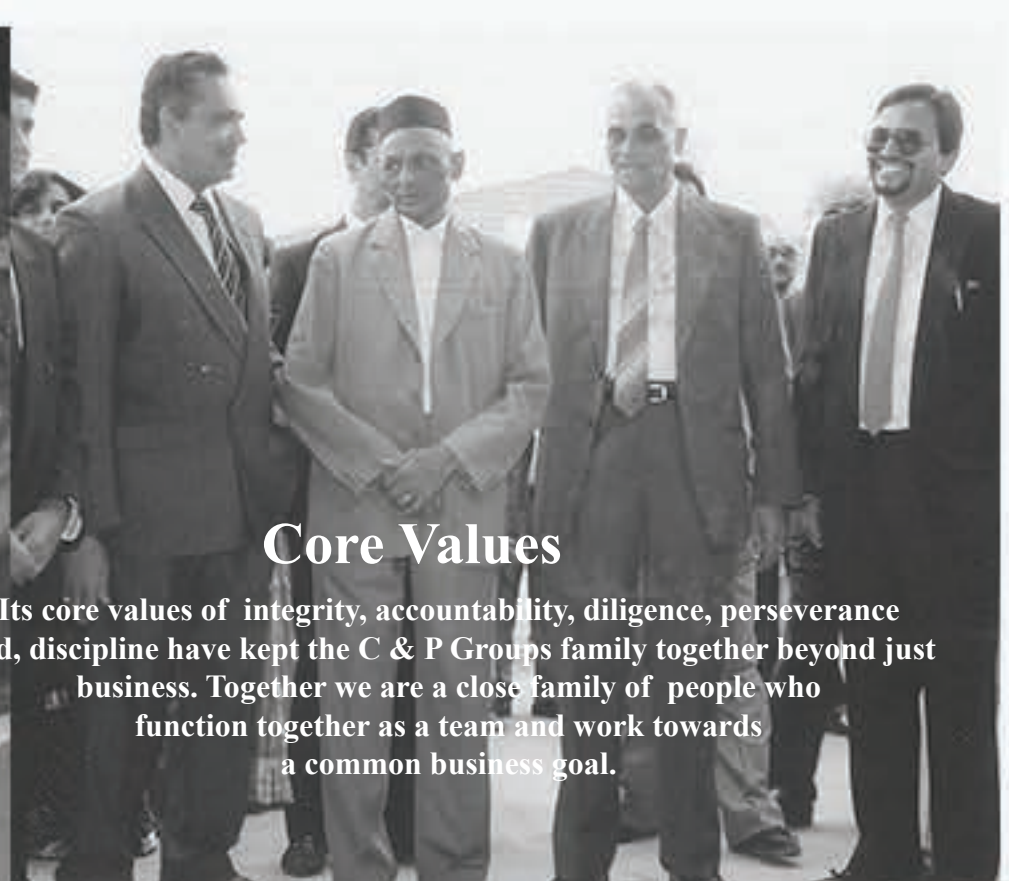

A true African leader who has been dominating the shoe manufacturing industry with advanced technology & its hand on execution style, complimented with futuristic goals.

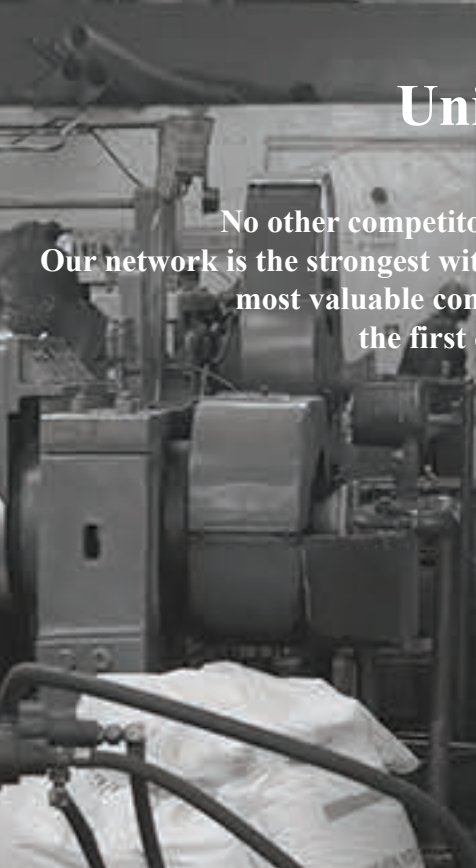

Strong Heritage

For over forty years now the C & P Group has been raising the bar in every aspect of the business. Besides mastering the craftsmanship used for manufacturing shoes, the company has retained its inherited traditions and its culture. While this has been accomplished over time, in parallel they also mastered the reins of doing business in the sub - continent.

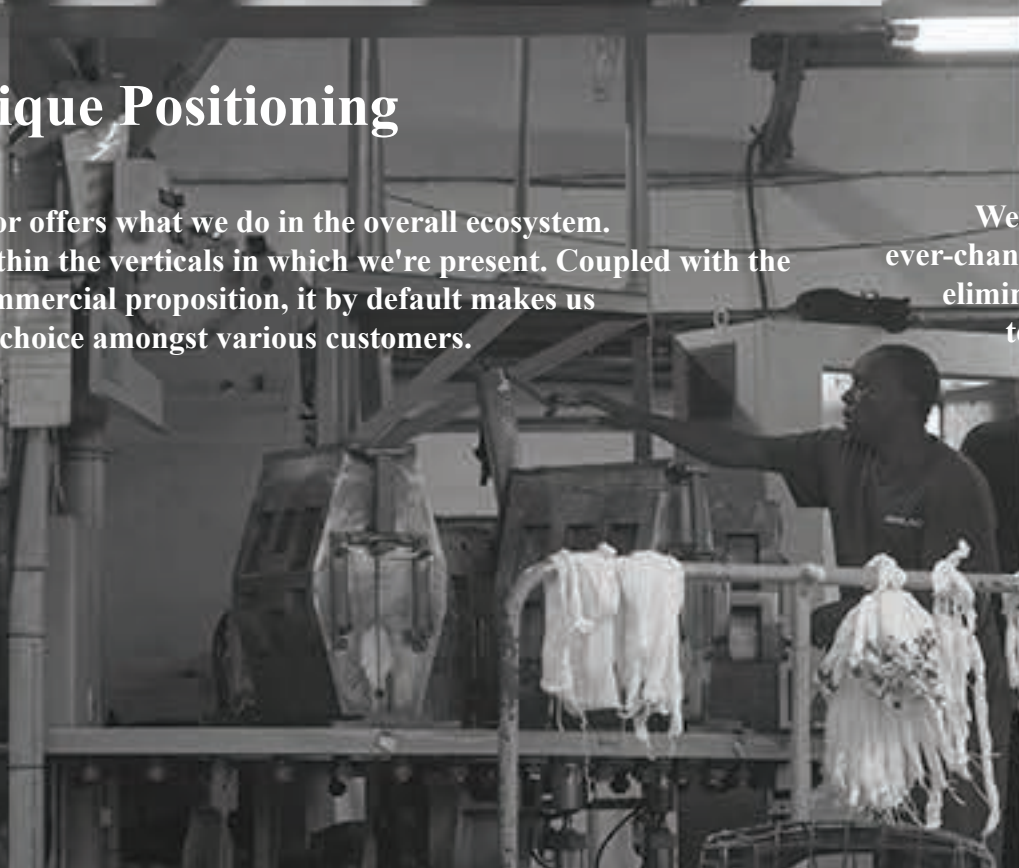

Core Values

Its core values of integrity, accountability, diligence, perseverance and, discipline have kept the C & P Groups family together beyond just business. Together we are a close family of people who function together as a team and work towards a common business goal.

Unique Positioning

No other competitor offers what we do in the overall ecosystem. Our network is the strongest within the verticals in which we're present. Coupled with the most valuable commercial proposition, it by default makes us the first choice amongst various customers.

End to End Solution

We provide end-to-end solutions that keeps pace with the customers ever-changing requirements. Our final product also adheres to a philosophy that eliminates as many middle layers or steps as possible, which inturn helps to optimize the performance and efficiency of the final product.

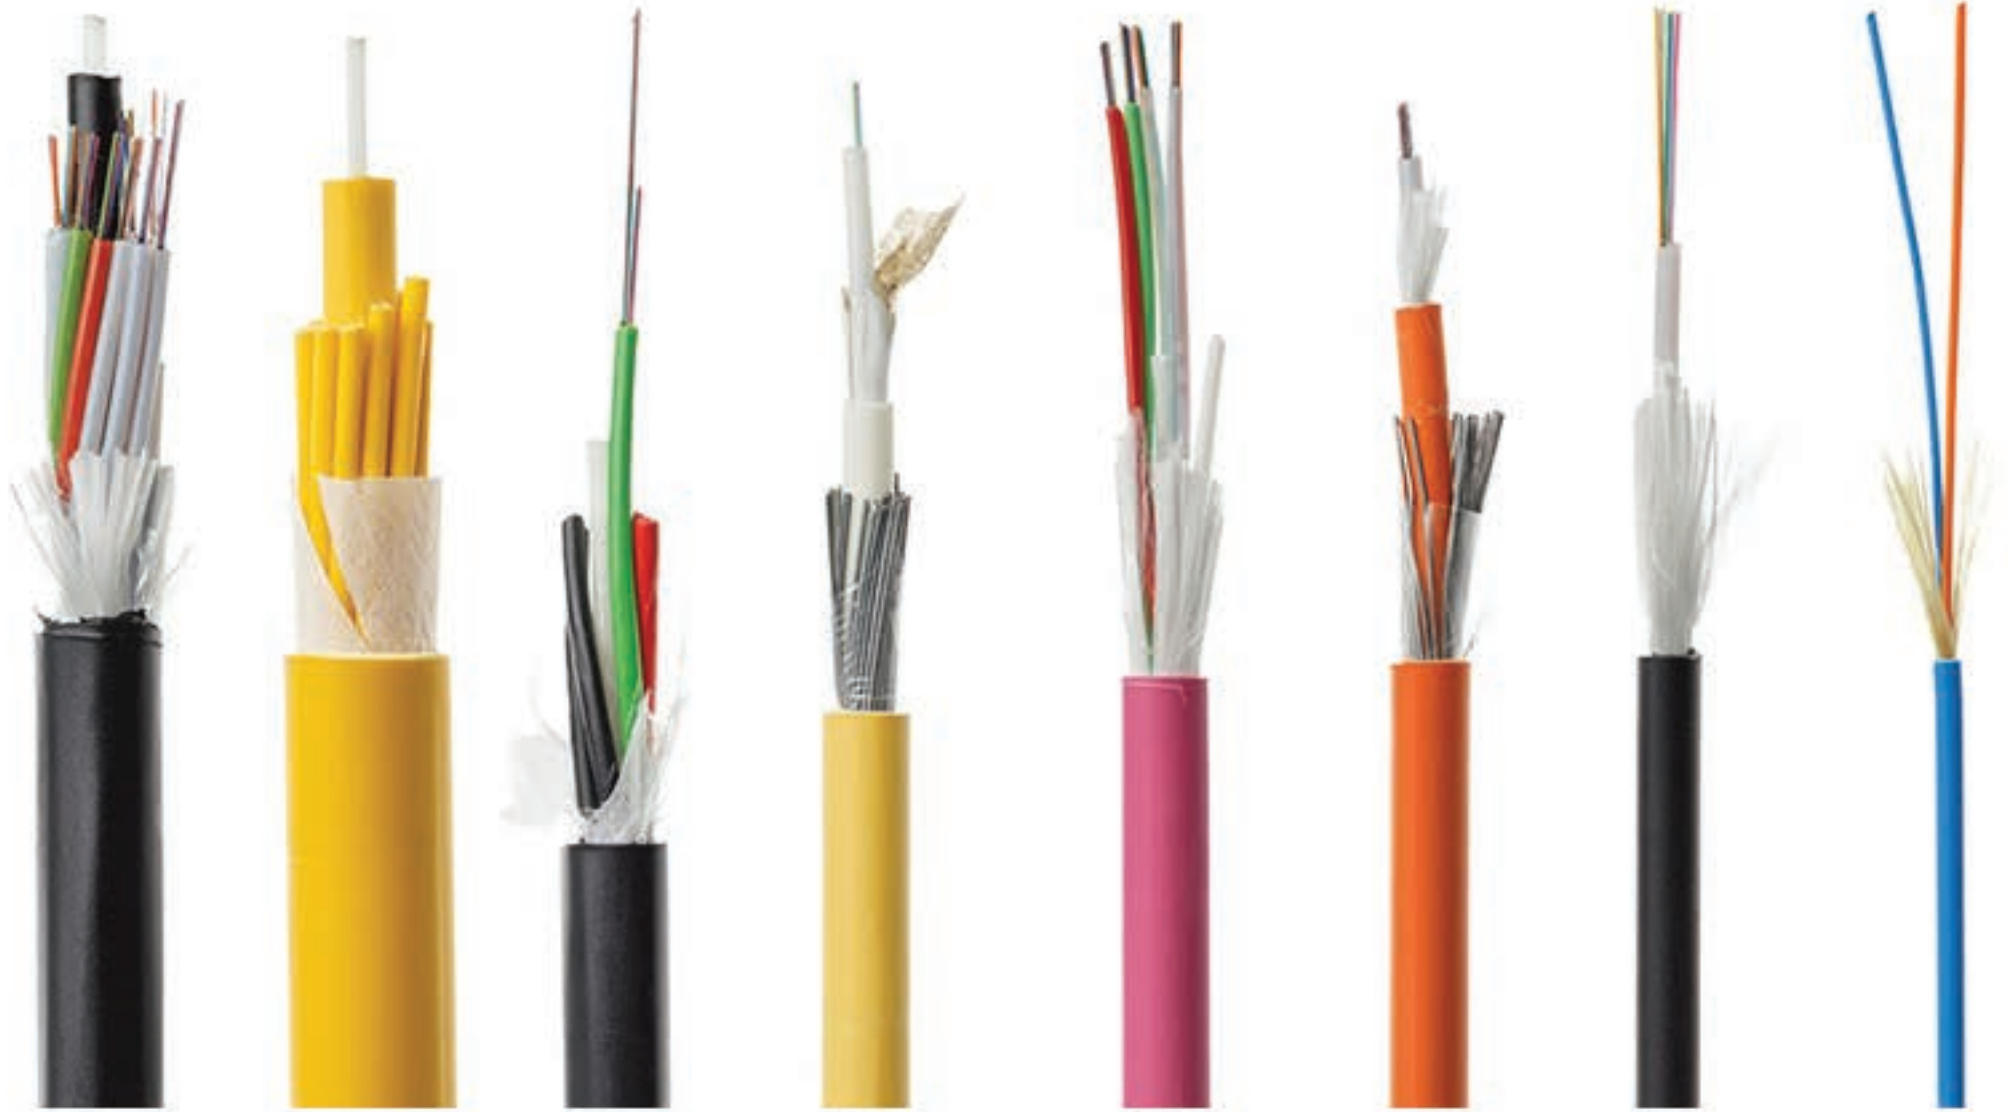

Challenge Your Imagination

Achieving excellence is at the heart of the C P Cables ethos beyond your imagination

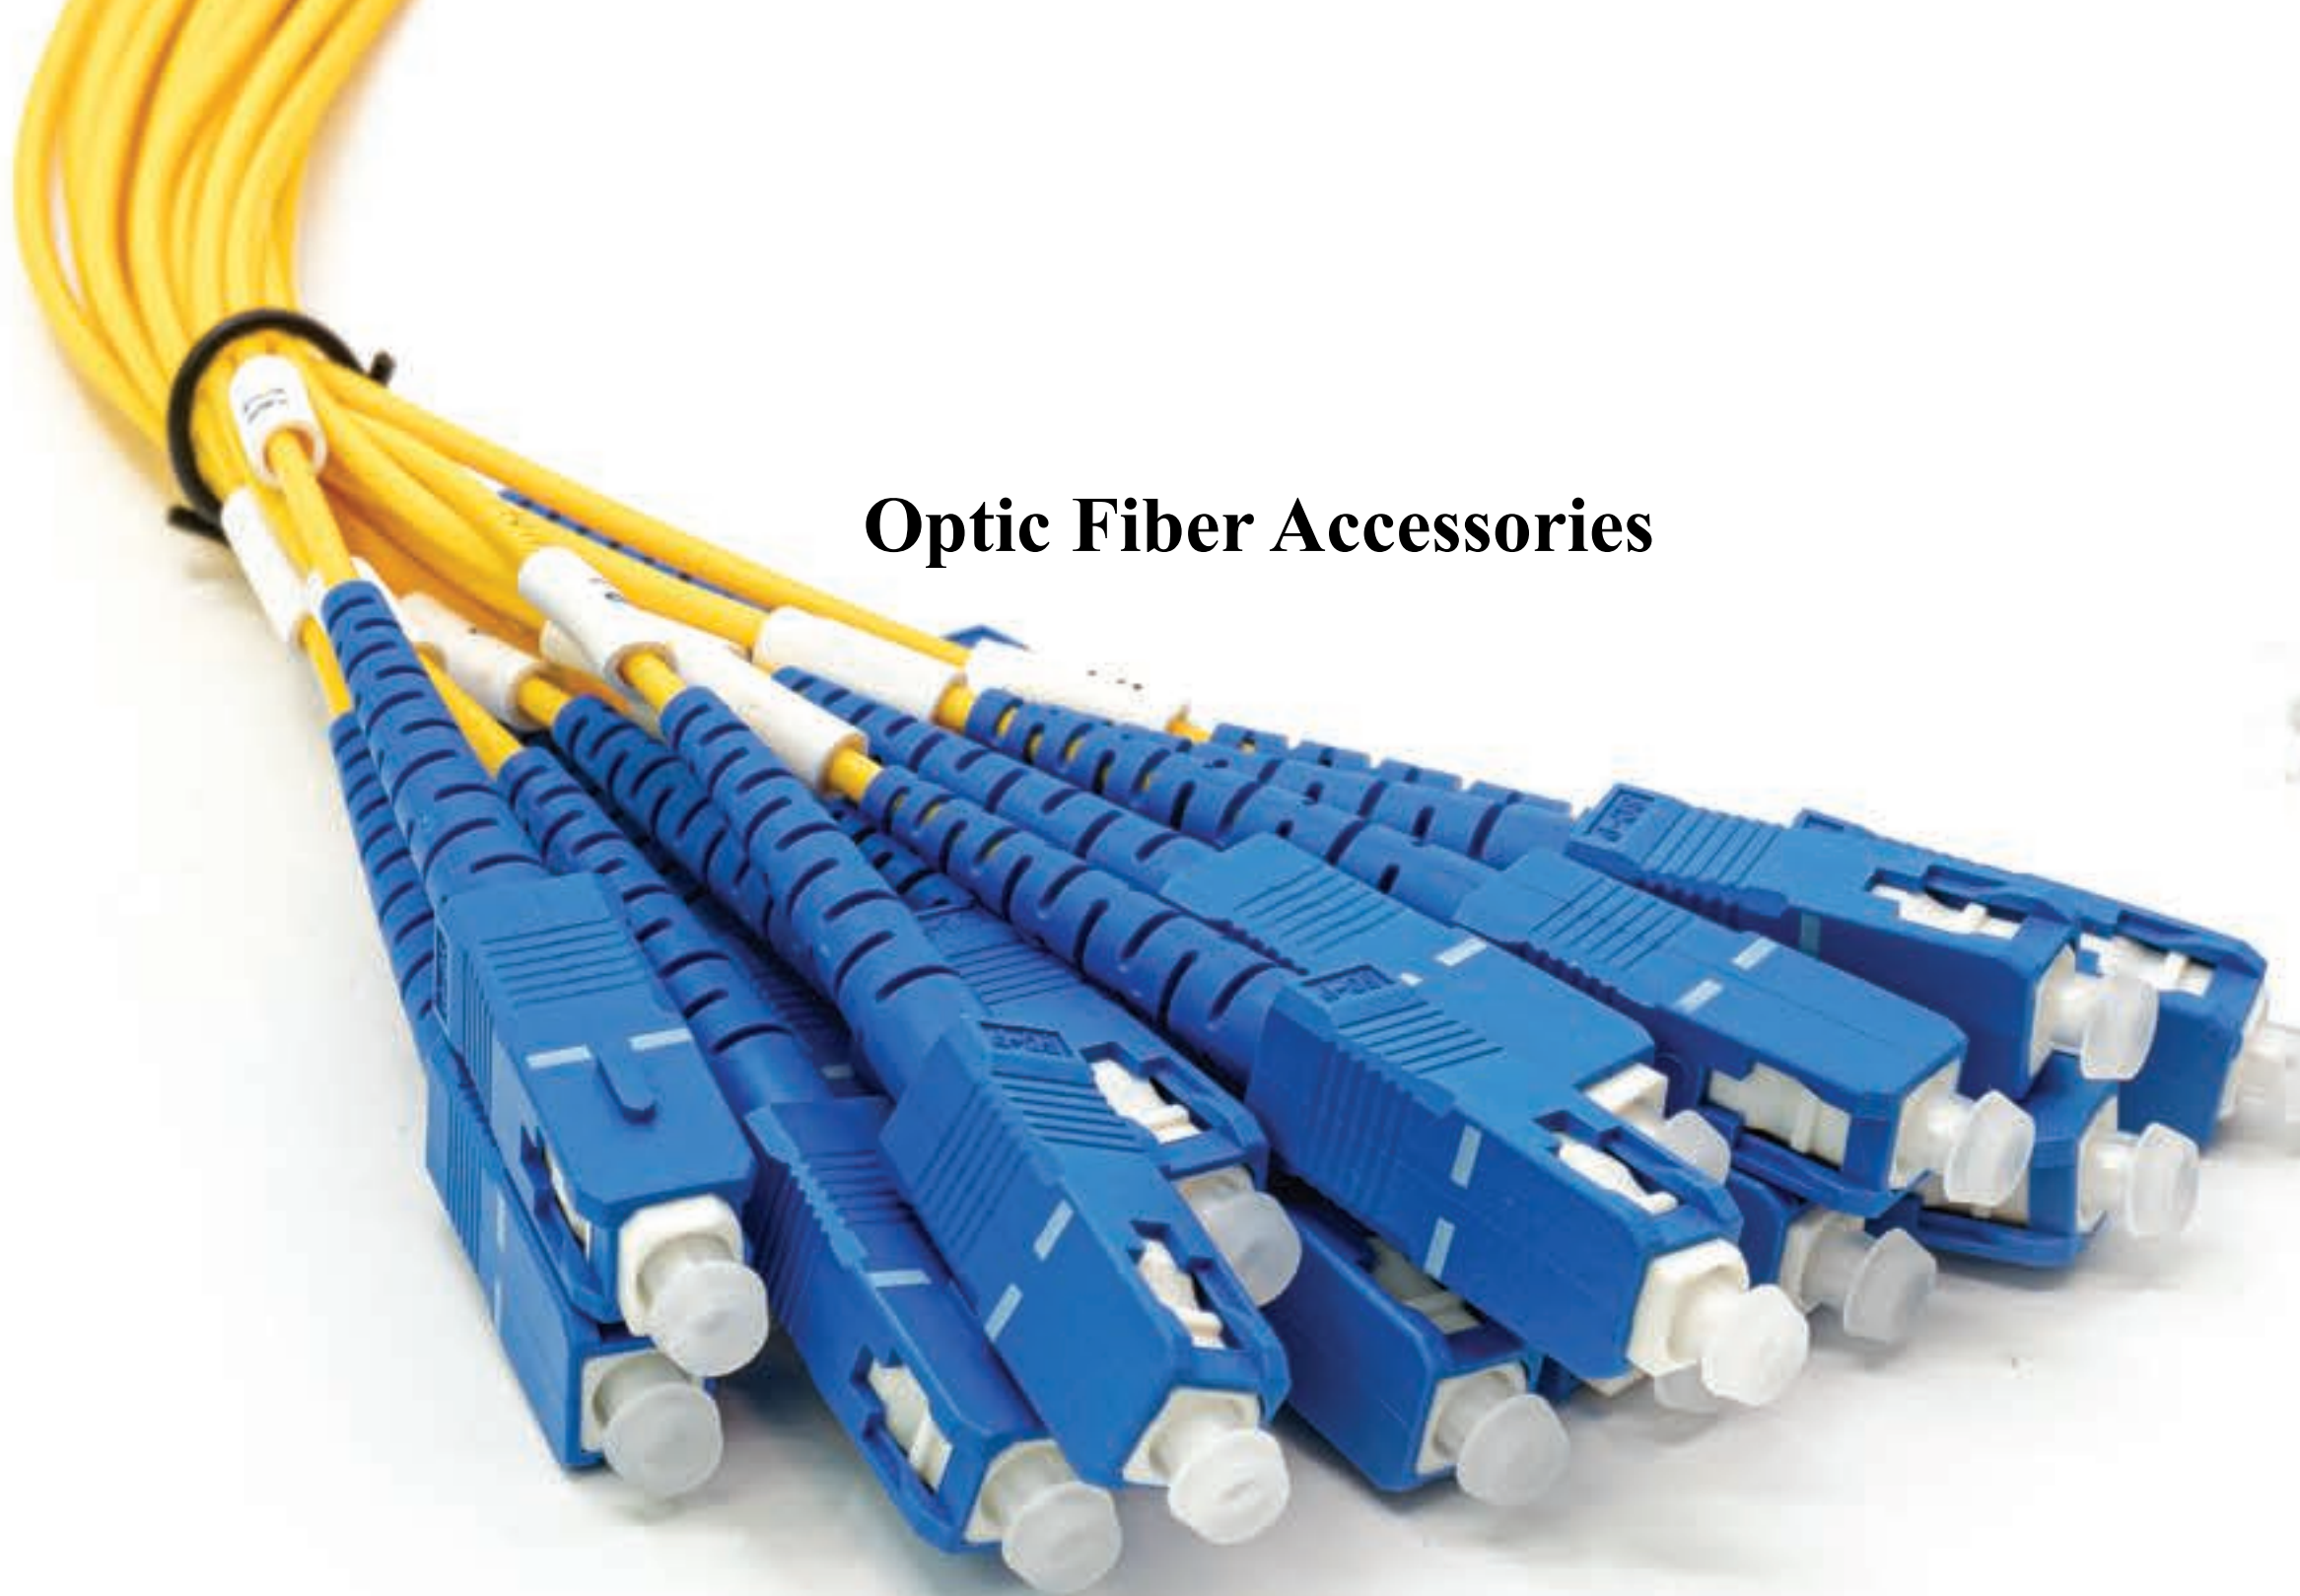

**And from that core, emerges the products & solutions offered by C P Cables.

Copper Cables and Accessories

Copper wire is a great choice for industrial & commercial electrical applications. It can be used for power transmission, communications, networking, electric motors, lighting & heating.

C P Cables sees growth in the different applications where telecommunication & network cables are increasingly being used. It is largely focusing on this segment of the business.

MARKET PLACE

C P Techmall

**Our uniquely positioned, GLOBAL e-commerce portal featuring
Fiber Optic, Copper Products & Other Networking Solutions, shipped to your
doorstep across the African Continent & Other Countries.**

A perspective view of a server room. The room is filled with rows of server racks. The racks are dark, and the floor is a light-colored grid. The ceiling has recessed lighting. The overall atmosphere is dark and industrial, with a strong focus on the repeating lines of the server racks and the glowing orange lights.

**Your Livelihood depends upon the performance of our products, logistics & solutions.
No one knows this better than us**

A modern server room with rows of server racks and glowing orange lights. The room is dimly lit, with the primary light source being the server racks themselves, which have a warm, orange glow. The racks are arranged in long, parallel rows, creating a sense of depth and perspective. The ceiling is dark, and there are some recessed lights visible. The overall atmosphere is one of a high-tech, data-driven environment.

**We are customer-obsessed on a completely different level.
C P Cables is well aware that in these fast-paced, jet-age surroundings, your dependency on data uptime is extremely critical. Being the agents of change & a catalyst for consumers of data, we work with the utmost sense of urgency & commitment. Our dedicated team of young professionals are always there to support our customers with information about products and services that are needed to be connected to the outside world**
